

Agent in France:
Ecurie du Freudenberg, Raymond Schoenhentz, Reyersviller

A Nutripferd client from France reports about his observations in 2006.

„ I have a 27 years old horse which had extreme skin problems due to its age. The general health condition was bad, too. Teeth were used up and feed could not be sufficiently chewed and digested.

Starting from 4th April 2006, I added 10 g Nutripferd* to the feed and additionally gently administered once a day Natural Bio Stimular Oil* to the coat on the affected areas.

4. April 2006

Name: **KID**

Breed: Painthorse

The combined effect was incredible, already after some weeks the horse looked presentable again.

30. April 2006

I shall feed Nutripferd daily now all year round and use the Oil according to need.
Marc B., Camargue, Nähe Marseille

* Name in France:

Nutripferd = BIO TONIQUE & Natural bio Stimular Oil = HIPPO SOIN DE PEAU
